[Gothic-horror Photoshoot - Models Needed](#)

Hi,  
I'm still looking for models for my 'Beauty and the beast' project. See <http://gallery.vickers.at/horror> for examples.

I'm also looking for models for my artistic nude project. See <http://gallery.vickers.at/nude> - password 'beauty' for examples.

The shoots will take place at my studio in Vienna (<http://gallery.vickers.at/studio>) and will be completely free. Models will get the photos (full resolution & without logos) on a DVD on the day of the shoot.

Some of my best photos come from absolute beginners - so if you've never done this before, don't be shy, get in touch!

You also don't need a classic 90-60-90 body - I'm used to working with all body types and know a lot of lighting/posing tricks to make you look perfect.

If this is something that interests you, please send me a PN or contact me through my website: [www.colinvickers.com](http://www.colinvickers.com) (Don't worry - I understand german just fine).

Colin
